ELVEY
Security Technologies

COMPACT
OUTDOOR
DETECTOR

fit series

Designed with the residential and light commercial market in mind, the FIT Series includes SMDA (Super Multi Dimension Analysis) where every motion is analysed before signalling an alarm to reduce false and missed detections.

fit for windows

fit for poolside

fit for garage

fit for sidewalk

fit for balcony

fit for garden

FTN-ST/AM

- Digital Anti-Masking (AM only)
- 5m / 2m narrow range
- 190° horizontal flexibility
- Pet-friendly
- Double conductive shielding
- Intelligent AND logic
- Super Multi Dimension Analysis Logic

FTN-ST/AM

WIRELESS

- Complete battery operation
- Digital Anti-Masking (RAM only)
- 5m / 2m narrow range
- 190° horizontal flexibility
- Pet-friendly
- Double conductive shielding
- Intelligent AND logic
- Super Multi Dimension Analysis Logic

The FIT Series has been developed to suit all external environments including balconies, alleyways, doors and windows in daylight and low level light.
The 190 degree built-in bracket enables horizontal radiation, allowing areas or objects to be blanked out with ease. The design of the detector has been carefully considered so not to alter the aesthetics of the environment where it's housed.

Welcome to

IFSECSOUTH AFRICA SECUREX

31 August – 2 September 2010, Sandton Convention Centre, Johannesburg

Breda Kenealy, Exhibition Manager.

Dear IFSECSOUTH AFRICA Securex visitor,

Welcome to the 16th annual IFSECSOUTH AFRICA Securex – South Africa's premier security, fire and protection, safety and health trade exhibition.

IFSECSOUTH AFRICA Securex 2010 offers you the most comprehensive overview of the African security industry under one roof. Two halls, consisting of specialised exhibitors, are here introducing the latest technological advances, innovative products and solutions available. From crime prevention and security solutions, biometrics and identity management, surveillance, alarm and access control products to the latest technology, it's all here.

Reflecting a more serious focus on the fire market, IFSECSOUTH AFRICA Securex 2010 has a section devoted to the prevention, detection and suppression of fire and gas-related incidents.

Another international trend that is very evident this year is the convergence between traditional security products and new IP-based systems. Convergence forms a large part of the show as vendors and service providers tout the benefits of IP in products from network video to intrusion detection.

Biometrics is becoming more important in the South African and global market and are increasingly being used less in isolation and more as part of an integrated security policy. Look out for the biometric specialists this year.

You will find many familiar exhibitors waiting to assist you. Over and above local exhibitors you will find international companies introducing state-of the-art products and solutions from China, Korea, Taiwan, United Arab Emirates and the UK, amongst others.

This year we are happy to welcome a French delegation of exhibitors for the first time.

In addition, the Educational Theatre and SASA Workshops will be held in Hall 2. A full programme of activities is posted outside the theatre and is also available in this catalogue.

The SIA Conference will be held on Wednesday 1 September.

IFSECSOUTH AFRICA Securex 2010 is well-equipped to provide you with the perfect platform to discuss specific business needs with specialist suppliers and benefit from their extensive market knowledge and expertise. You can source the latest products, equipment, systems and service providers, debate the latest industry trends, stay abreast of new technologies and consolidate business relationships.

You will find representatives in attendance from all the major industry associations who will assist you in finding member companies addressing your specific requirements.

We trust you will find your visit to this year's exhibition both educational and informative.

In response to popular demand we will be hosting IFSEC West Africa, 15–16 February 2011 in Nigeria. Visit our website on www.ifsecsa.com for updated information on this exciting inaugural event.

Best wishes,

Breda Kenealy

Cathexis
Stand number: Hall 1, D10
Contact: Gus Brecher
Tel: 031 566 7800
gusb@cat.co.za
www.cathexis.co.za

Cathexis manufactures and distributes analogue and IP video solutions in South Africa and internationally. Cathexis exports products to the UK, USA, India, Europe, Australia and the Middle East. Its products include analogue DVRs, IP solutions, H264 support, integrated solutions, as well as off-site monitoring solutions. Integration with access control, alarm panels, fire panels, point-of-sale is an area that differentiates the Cathexis solution, as well as sophisticated health monitoring.

Help keep your stores
focused on customer satisfaction.

A good video surveillance system does more than just record events. It improves your ability to prevent and control them – allowing you to focus on your actual business.

Combine the new Axis range of compact affordable M-line network cameras with AXIS Camera Station, or with a video management solution from one of our partners, to create a truly effective HDTV surveillance system.

Easy to install and operate, an Axis IP-Surveillance system delivers image quality that really proves your case, and the flexibility and scalability needed to accommodate your changing needs. So you will rest easy with a trouble-free video surveillance choice that lets you focus on what's important for you.

Get the Axis picture. Stay one step ahead.
Visit Axis at IFSEC South Africa: Stand A18, August 31-September 2, Sandton Convention Center, Sandton, Johannesburg.

www.axis.com/focus
AXIS M11, AXIS M32 and AXIS M10 network cameras, combined with AXIS Camera Station, provide a complete network video solution for up to 50 cameras that supports HDTV, H.264 and Power over Ethernet.

AXIS COMMUNICATIONS

Chowsons International
Stand number: Hall 1, E2
Contact: Robert Chang, David Wu, John Julicher

IAC is a distributor of Mobotix IP cameras – a complete high resolution video solution – and Eyevis high-end quality large screen systems and video wall solutions.

ID Card Technologies
Stand number: Hall 1, A13
Contact: Theo Romanelis
Tel: 011 907 6913
theo@idct.co.za
www.idct.co.za

As a leader in the field of identification access control and identification photographs, ID Card Technologies has the answer to these comments... "We do not trust the word of our fellow humans.""We lack full confidence in what we are told by the person so we need to back it up with a card." "The identification card enhances our trust and confidence in the person." "The ID card is an extension of our trust." There is little doubt that the most basic reason for a identification card is to uniquely identify the cardholder.

SECURITY ASSOCIATION OF SOUTH AFRICA

SASA

SASA WORKSHOPS

The Security Association of South Africa (SASA) is hosting workshops with speakers covering an array of topics to complement the IFSECSOUTH AFRICA Securex exhibition at the Sandton Convention Centre from 31 August to 2 September 2010. The workshops will take place on 31 August and 2 September only.

The workshops are open to everybody, entrance for SASA members is free of charge (subject to proof of valid membership), and non-members will be charged a registration fee of R100 per day.

DAY 1 – Tuesday 31 August 2010 – ELECTRONICS

DEMYSTIFYING COMMON MYTHS ABOUT SECURITY RADIO SYSTEMS	TONY MAKOSINSKI – HONEYWELL UK	10:30 – 11:15
HOW THE HUMAN FACTOR IS CRITICAL IN DELIVERING CCTV SYSTEM PERFORMANCE	CRAIG DONALD – LEADERWARE	11:30 – 12:15
SECURITY TRAINING UPDATE	NEIL GILLESPIE – ELVEY TECHNOLOGIES	12:30 – 13:15

DAY 2 – Thursday 2 September 2010 – FIREARMS

THE SECURITY INDUSTRY & THE FIREARMS CONTROL ACT	MARTIN HOOD – M J HOOD & ASSOCIATES	10:30 – 11:15
DISCIPLINARY PROCESS & CONSISTENCY OF FIREARMS	CHARLES KINNEAR – ABCORLAW INC.	11:30 - 12:15

NEW SHOW

IFSECWESTAFRICA

15th-16th February 2011
EKO EXPO Centre, Lagos, Nigeria

THE ONLY FORUM FOR SECURITY PRACTITIONERS IN WEST AFRICA

including Nigeria, Ghana, Ivory Coast and Senegal

- Nigeria is the 2nd largest economy in Africa
- Lagos to be world's 3rd largest city by 2015
- Rapidly growing untapped security market
- Confirmed support from Government and Industry associations
- To be held in a state of the art venue

www.ifsecwestafrica.com

Security Industry Alliance

Representing the Security Industry in South Africa

SIA 2010

Conference of the Security Industry Alliance

Conference theme:

Future of Private Security Industry

Venue: Sandton Convention Centre
Time: 07h30 to 16h00
Date: Wednesday, 1 September 2010

Since its formation in 2003, SIA has been the private security industry's voice to the government. Comprising a growing number of employer bodies and associations within the South African security industry and its allies, SIA communicates with government and other stakeholders on a regular basis. These include PSIRA (Private Security Industry Regulatory Authority); the Safety and Security Ministry; and SASSETA (Safety and Security Sector Education Training Authority).

The reasons for these interactions include building bridges with government departments and to discuss proposed regulations which will have a direct impact on both the security industry and the consumer alike. Another reason is to ensure that government receives a steady flow of accurate information from the industry so that it clearly understands its dynamics.

The speaker line-up includes:

- ❑ David Evans, Olympic Games 2012 Project Director
  Topic: 2010 – Terrorism – A future threat?
- ❑ Costa Diavastos, Director, Human Resources, G4S
  Topic: Non-compliance with industry regulations – The threat to the private security sector.
- ❑ Zongezile Baloyi, CEO SASSETA
  Topic: Private security sector transition to the new National Skills Development Strategy 3: What does the future hold for the sector?
- ❑ Martin Hood
  Topic: Firearms Control Act and how it affects service delivery in the private security industry.
- ❑ Michael Broughton, Retail Security Expert
  Topic: Industry database – How can the private security industry benefit?
- ❑ Ken Mourant
  Topic: Workmans Compensation Act – A plan for massive savings to the service providers.

Other topics that will be covered:

- ❑ CCMA – challenges to the security sector.
- ❑ Training and the impact on future business.
- ❑ Provident fund update and future outlook.

The significance of this event simply cannot be under-estimated.

DO NOT MISS IT!

Space is limited, so book your seat now!

EDUCATIONAL THEATRE

Tuesday 31 August to Thursday 2 September 2010

	TIME	COMPANY	SPEAKER	TOPIC
TUESDAY 31 AUGUST	10h30 - 10h50	Tridium (ADI)	Bonny Pedra	Open platforms for building management systems (features and benefits).
	11h00 - 11h20	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation. systems: EN and ISO.
	11h30 - 11h50	Frank Street	Abie Ali	IP technology/hybrid technology.
	12h00 - 12h20	IAC	Vladimir Milovanovic	High resolution IP video.
	12h30 - 12h50	AXIS	Roy Alves	HD video.
	13h00 - 13h20	IDECO	Craig Dubois	Biometrics – yesterday, today and tomorrow.
	13h30 - 13h50	HID Global	John Lakin	The benefits of multi-application smart card technology.
	14h00 - 14h20	TCT	Malcolm Thomas	SmokeCloak – A paradigm shift in security, from hardening – making effective use of technology.
	14h30 - 14h50	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation systems: EN and ISO.
	15h00 - 15h20	SAIS	Terry Scallan	Getting your money back from SASSETA.
	15h30 - 15h50	SAIS	Errol Peace	Armed robbery survival in South Africa.
	16h00 - 16h20	SAIS	Gert Pretorius	What is a continuing development programme for the security industry?
WEDNESDAY 1 SEPTEMBER	10h30 - 10h50	IDECO	Linda Glieman	Biometrics – yesterday, today and tomorrow.
	11h00 - 11h20	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation systems: EN and ISO.
	11h30 - 11h50	Frank Street	Abie Ali	IP technology/hybrid technology.
	12h00 - 12h20	IAC	Vladimir Milovanovic	High resolution IP video.
	12h30 - 12h50	AXIS	Roy Alves	HD video.
	13h00 - 13h20	Pelco (ADI)	Sedric Bischoff	The ultimate in end to end solutions.
	13h30 - 13h50	HID Global	John Lakin	The benefits of multi-application smart card technology.
	14h00 - 14h20	TCT	Malcolm Thomas	Versamax Selector Door – allowing biometric devices to reach their full potential for access control.
	14h30 - 14h50	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation systems: EN and ISO.
	15h00 - 15h20	SAIS	John Kole	The role of UNISA in tertiary security training.
	15h30 - 15h50	SAIS	Mike Verster	The role of the skills development facilitator in security skills development.
	16h00 - 16h20	SAIS	Errol Peace	Security training compliance.
THURSDAY 2 SEPTEMBER	10h30 - 10h50	Samsung (ADI)	Keith Scott	ONVIF - Open network video interface forum.
	11h00 - 11h20	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation systems: EN and ISO.
	11h30 - 11h50	Frank Street	Abie Ali	IP technology/hybrid technology.
	12h00 - 12h20	IAC	Vladimir Milovanovic	High resolution IP video.
	12h30 - 12h50	AXIS	Roy Alves	HD video.
	13h00 - 13h20	IDECO	Siresen Naidoo	Biometrics – yesterday, today and tomorrow.
	13h30 - 13h50	HID Global	John Lakin	The benefits of multi-application smart card technology.
	14h00 - 14h20	TCT	Malcolm Thomas	Remote monitoring solutions from TCT.
	14h30 - 14h50	TOA Electronics	Volker Scheid	Standards and norms around automated emergency voice evacuation systems: EN and ISO.
	15h00 - 15h20	SAIS	Terry Scallan	The envisaged new security training regulations.
	15h30 - 15h50	SAIS	Steve Conradie	The role of the security industry alliance in SA industry and interaction with government.

Exhibitor	Access control	Alarm receiving centres	Ammunition/firearms & weapons	Architectural hardware	Biometrics	Building management systems	CCTV installation	CCTV monitoring	Counter terror	Counterfeit detection	Emergency services	Fibre optics	Fire	Home & corporate security	Integrated systems	Intruder alarms	IP/TCP/Ethernet systems	IT security
